Past Simple - Board Game

How to play:

You will need a die and two of the same coloured counter for each player.

Each player places one counter on '**Start**' and one counter on any of the '**?**', '**–**' or '**+**' squares.

The first player rolls the die and moves their counter according to the number on the die. For example, if the player rolls a three they move to the verb '**meet**' and they move their other counter in any direction. If the player lands on '+' they say a positive sentence in the Past Simple using the verb 'meet'. "I **met** my friends in the park last night." If the player lands on '-', they say a negative sentence and if the player lands on a '?' they ask a question.

The winner is the first player to reach '**Finish**'.
