Name one thing on the Seder plate.

This game is for four players.

**You will need** - 3 counters in each colour - green, blue, yellow and pink.

A die

**How to play** - Each player chooses a colour - pink / green / blue / yellow - and places his/her three counters on the circles next to the 'start' arrow.

Each player in turn rolls the die and moves along the board. If the 'Pink Player' rolls a '3' he/she moves to square with the question, 'How many cups of wine do we drink?' The player answers the question and it is then the next player's turn.

The player to move around the board and reach his HOME first (all three counters must reach the coloured squares) is the winner.

**Rules:** You can have one counter, two counters or all three counters moving round the board at the same time.

If a player lands on a square which is occupied by another player, the player whose turn it is sends the first player's counter back to the beginning (of that player's colour).

A player must throw an exact number to get home (to stand on any one of the 'Home Sweet Home' squares).
